

**THE MARKET
LEADER
IN GLASS
ACCESORIES**

**The Perfect Combination for
Elegant Glass Accessories**

INDRODUCTION

With their broad range of options and configurations, GLASSIX patch fittings are ideal for almost any design. Tempered glass assemblies are provided with fixed parts in a variety of arrangements-with corner fittings or fin fittings at different angles, and with double or single acting doors in single-leaf or double-leaf designs.

All our fittings and accessories are of modular design comprising the basic body,functional inserts and covers. And high-grade materials of solid construction ensure long service lifetimes.

GLASSIX Hardware design is and always will be one of its main concerns - but without neglecting material quality, workmanship and mechanical efficiency.

We are committed to development and innovation in all aspects of glass accessories and its use in architectural systems with a consistently high standard of design, Functionality and quality guaranteed!

The profile section includes all the component current manufactured by GLASSIX authority and available in stock
